10.

Cheese Board w/fig paste, quince jam, crostini
10.

SWEET THINGS

Ice Cream or Sorbet
5.

Bread Pudding
5.

Something with Chocolate (ask us)
5.

NECTAR OF THE FRAUDS

Imported bottled water? Not at The Ol' Factory...

We have a state of the art (and rather pricey) water conditioning/softening/reverse osmosis filtration system in place. The same water you pay for at "water stores." Why? Because like so many other restaurants and cafes in this country, we have come to realize that drinking bottled water is one of the silliest things anyone could do... right up there with driving a Hammer.

It's a wasteful, unnecessary, expensive, ecologically destructive, overhyped fraud. It's not cool to drink some unpronounceable Icelandic water in cutesy bottles. It's stupid.
